## ASK EPA...AGAIN

### Questions and TRUE answers about asbestos and EPA

**Q. Is it true that Paul Peronard has turned himself in to the Office of Inspector General because of questions about his complicity in setting up a deal for the Mayor of Libby? I understand WR Grace paid for \$500,000 worth of improvements to the Mayor's private property in exchange for screwing the people of Libby one more time by avoiding the health care issue. Will this investigation include looking into the attack, by a City official, on the daughter of a businessman who was asking too many questions about this issue?**

**A. We are working hard to avoid this issue. Please don't ask any more questions or we will have to call 911.**

**Ms. Thomi;**

**I was disappointed, but not surprised, to see that my comments about the Mayor's bribe did not get printed in the CAG minutes. You know that fits with my belief that the CAG is just a propaganda machine for the EPA and won't deal with any issue that puts EPA in a bad light. EPA has had two years to deal with this corruption and you have hidden it very well. It is affecting the funding for health concerns now. I am willing to get the information out, this is a rough draft of my latest "Ask EPA" ad. Please contact me so we can discuss where I can obtain information about the investigation. I would love to see it posted on your website. I can be reached at 406-293-4702. Thank you. DC Orr**
